

## Manually Importing User Lists into Aspen Discovery

### What Are User Lists?

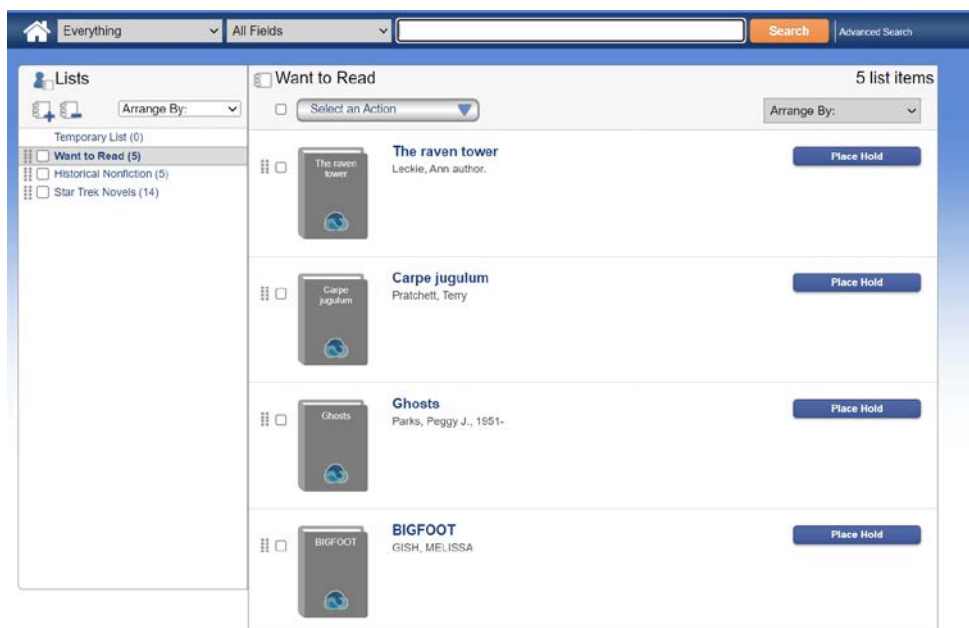

In our current public catalog, Enterprise, patrons can create lists of books and materials with a feature called **My Lists**. They may use these to keep track of books they want to read, books on a particular subject, books by a specific author, etc. Unlike a user's **Reading History**, which is saved in Symphony, these user lists only exist in Enterprise. As such, there is no easy way to move them over to Aspen Discovery.

### Option 1: Print-Copy-Paste

1. Log into Enterprise.
2. Click "My Lists" to bring up the list interface.

The names of the lists will appear in the left-hand pane (a list of lists) and the actual list entries will appear on the right.

3. Select the list you wish to transfer (Want to Read in the example above). Click the checkbox next to the “Select an Action” dropdown to select all titles in the list. Choose the “Print” action. This generates a simplified list that we can copy. Select the text on this page and copy it.

## Want to Read

**The raven tower**  
Leckie, Ann author.

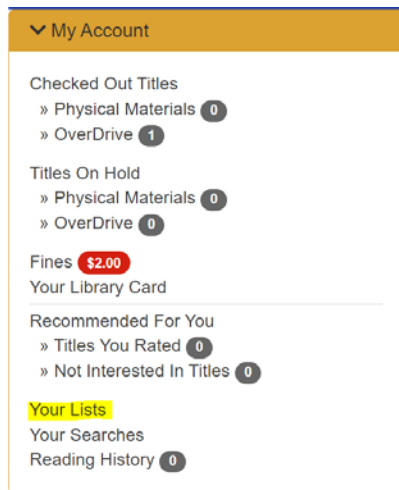

**Carpe jugulum**  
Pratchett, Terry

**Ghosts**  
Parks, Peggy J., 1951-

**BIGFOOT**  
GISH, MELISSA

**Alien abduction**  
Zucker, Jonny.

4. In another tab or window, open Aspen Discovery and log in with Barcode and PIN. Click the “Your Lists” option under the My Account box:

5. Click “Create New List,” name the list, and optionally give it a description:

6. Click the name of the new list to view the (currently empty) list screen. Click the “Add Multiple Titles” button.

Imported from Enterprise

[Edit](#) [Add Multiple Titles](#) [Email List](#) [Print List](#) [Export List to CSV](#) [Generate Citations](#) [Sort by ▾](#) [Delete List](#)

You do not have any saved resources

7. Paste the list from Step 3 into the box and click “Add to List.”

**Add titles to list** ✕

Please enter one or more titles or ISBNs to add to your list. Each title or ISBN should be on its own line. We will search the catalog for each title and add the first matching title for each line to your list.

The raven tower  
Leckie, Ann author.  
  
Carpe jugulum  
Pratchett, Terry

[Close](#) [Add To List](#)

8. Check the results. Compare the newly generated list to the old list. You will have extra titles belonging to authors, because Aspen treats each line as a separate entry. You can delete these by clicking the big red Delete button next to the titles. (*As an alternative, you may paste the titles from the old list into a text editor and remove the authors before importing them.*)

**NOTE:** If you have older lists, you may have some titles in your list that look like this:

**Company Town**  
The link to this item is no longer valid. The item could have been removed from the catalog or the link could have changed.  
[Search the catalog for this title](#)

**Steal the sky : a scorched continent novel**  
The link to this item is no longer valid. The item could have been removed from the catalog or the link could have changed.  
[Search the catalog for this title](#)

These titles have since been removed from our catalog and may not transfer to your new list. Patrons are encouraged to save these titles in a separate document if they wish to keep a record of them.

## Option 2: Email – Copy ISBNs – Paste

*This method takes more time and requires extra steps, but it is the most precise method.*

1. Log into Enterprise with Barcode and PIN.
2. Click “My Lists” to bring up the list interface.
3. Select the list you wish to transfer. Click the checkbox next to the “Select an Action” dropdown to select all titles in the list. Choose the “Email” action. Provide a valid email address and click “Send Email.”

**NOTE:** This method does not work with lists longer than 119 titles. In this circumstance, select groups smaller than 119 and email each group separately.

4. Check your email for an email from [no-reply@sirsidynix.com](mailto:no-reply@sirsidynix.com) with a subject of “Results:”

[no-reply@sirsidynix.com](mailto:no-reply@sirsidynix.com)

To:  Alex Carver - RCLS

### The raven tower

by Leckie, Ann author.
